DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-7, 9-13, and 15-33 (renumbered as claims 1-30) are allowed.
2. The following is an examiner's statement of reasons for allowance.

Prior art of record fails to teach or fairly suggest a method, system and apparatus for providing an additional service to a called party having a subscription to a communication company's communication service, wherein the calling party is billed for a call from the calling party to the called party wherein the call is received by the called party through an exchange of the communication company and providing the additional service to the called party based on a communication time of the received call, and in accordance with the subscription wherein the additional service is a discount of a communication charge of outgoing calls made by the called party using the communication company's communication service, the discount calculated in accordance with the communication time as recited in independent claims 1, 7, 9, 10, 11, 12, 13 and 15 and generally shown in figure 3 thereby providing the discount to the called party in real time.

In other words, prior art teaches discounts based on the amount of communication during a billing cycle but prior art does not strictly limit the discount based solely on the communication of the received call (i.e. the current received telephone call) as recited in independent claims 1, 7, 9, 10, 11, 12, 13 and 15 and generally shown in figure 3. Independent claims 1, 7, 9, 10, 11, 12, 13 and 15 strictly

limit a discount based solely on a current received telephone call and the discount can only be provide to the next outgoing call made by the called party.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
